Cherish Grant Application Form Questions

This document is designed to help applicants to our Cherish grant programme prepare their submissions ahead of filling out the live grant application form. This document outlines all the questions that you will be asked and enables you to gather information and draft your responses in advance.

Please note there is not a separate Cherish application form – you will need to fill out a regular National Churches Trust Grant application form, as applicable to the amount that you are applying for. Under £5,000 is a small grant, and £5,000 - £10,000 is a medium grant. Grant applications for more than £10,000 need to come in via our regular large grants programme – details of which can be found here: Large grants | National Churches Trust

We will not be able to accept an application using this form, we expect all applicants to register onto our portal and complete an online application. However you will be able to cut and paste your draft answers across.

Whilst the number of questions may appear lengthy, many fields are short, yes/no, or dropdown boxes (these options aren’t available here but will be when you come to submit on the online form). Where longer responses are required, we expect preparation of your responses now will also benefit your submissions to other funders.

Questions marked with an asterisk (*) are mandatory.

Deadline dates can be found on our website, you can access these and the application forms here:
nationalchurchestrust.org/get-support/grants

The Cherish Project is being delivered in partnership with the National Lottery Heritage Fund and thanks to National Lottery Players.

**CASE FOR INVESTMENT: Tell us why we should fund the project right now - the context and the case...**

We want to understand more about how you and your local community use the building. Help us to understand why this is the right time to fund this project.

Consider what difference the funding will make, and why it is necessary. What would be the impact on the project if we don’t fund now? Could it wait 6 or 12 months even?

We place a strong emphasis on being open. Our website has pages on how to make the most of your building including help on opening and security.

**RISK MANAGEMENT & PROJECT PLANNING:** Tell us about the project lead, your maintenance approach and fundraising...
It is important that repair projects are led by a suitably qualified professional. Please detail in this section who will lead the project and details about your maintenance plans and practices. Development applicants may not have a lead at this stage, we expect all repair applicants to have a lead professional engaged (with conservation accreditation if the building is listed).

We strongly encourage good maintenance practice and all grant recipients need to have a maintenance plan in place by the point of payment. For further information about maintenance, including plan templates, see our website.
